

Hi! We are Anthony (6 years) and Elena (5 years) and we are brother and sister!

Anthony and Elena have been in foster care since November 2018.

Anthony - I love Pokemon, I like to play on my PS3 too, I also like Minecraft! I love to draw and watching films.

Elena - I love going to Indoor play centres and also playing in the garden on the slide and trampoline. I also like Peppa Pig and Paw Patrol.

jumping bean of joy.

Anthony is an engaging, funny and chatty little boy. He enjoys being active, he loves running and football. Anthony likes going to the park, swimming, and in door play centres as well as going to the cinema or watching films at home. He is creative and likes drawing; he also enjoys his homework and practising his spellings.

Elena's foster carer describes her as quiet, inquisitive and polite. Her foster carer says she is quite quiet and appears more open when other children are around. Elena likes to ask questions, which is a sign of her anxiety. Her carers state that she seems to gauge people's reactions prior or after to what she does.

Her carers state that Elena is an easy child to care for. She is extremely polite and always considerate of others around her. She is becoming more confident in herself as she begins to trust others.

Elena likes storytime, and also imaginative play with her dolls and teddy bears. She enjoys bouncing on bouncy castles. Her favourite toy is her dolls house.

Together they enjoy building towers and castles with their wooden blocks.

Placement Orders were granted for the children in October 2019

Proposed contact- Post placement contact is recommended at a level of 1 yearly, 2 way Information Exchange for birth parents and siblings. Direct contact would be expected with the children's sibling where the plan is adoption.
