

Hi! I am Isaac and I am 4 years old.

Isaac is a four years old boy of dual heritage; his mother is Iraqi/Algerian and his father is Eritrean. Isaac has short dark curly hair and dark brown eyes. Isaac has a fair complexion and is of an average / slim build.

Isaac has a lovely infectious smile; he tends to smile and high-five people he recognises. His primary language is English. Isaac attends a pre-school 5 afternoons a week. It is reported that he is a very well behaved. He tends to play on his own and does not interact much with the other children. He loves numbers and letters and he also loves pens. Isaac enjoys playing with Lego and Duplo and he appears very capable – he can write names having seen them only once.

Isaac experienced neglect and emotional harm whilst living with his birth family.

Isaac is a healthy little boy and there are no concerns about his sight or hearing, however he has been referred to a Specialist Dentist. He has a diagnosis of Autism and his speech and language are delayed.

Isaac will need a family that will be able to meet his cultural needs as well as skilled and dedicated parents to allow him to reach his full potential.

Areas to avoid: North London.
